## ESSENTIAL SKILLS, KNOWLEDGE AND EXPERIENCE:

**Qualifications:** what are the minimum educational, technical or professional qualifications required to competently perform role

- A qualification (eg degree, diploma or recognised equivalent) or the equivalent level of experience in a relevant discipline (e.g. computer science, life sciences, database analyst, business or information systems discipline etc)

Skills, Knowledge & Experience:

- Experience in the development of Web based applications using back ended databases; utilising ASP.Net (Webforms, MVC, WebPI) and WinForms
- Experience with SQL/MySQL/MongoDb/other databases
- Experience with Microsoft Net Technologies, Visual Studio, C#, PHP, JavaScript, CSS, JSON experience
- Experience in scoping projects and assessing requiring resources (technology/time etc)
- Capacity to develop and deliver data collection solutions within project requirements and expectations using the Institute's information systems architecture
- Proven ability to both technically and operationally manage systems with layered administration
- Relevant knowledge and/or experience in facilitating the collection of research data
- Relevant knowledge and/or experience in software design and development using an object-oriented approach
- Strong documentation skills, and customer service focus
- Ability to effectively prioritise and execute tasks in a high-pressure environment
- Proven analytical and problem-solving abilities, working independently and within a team-oriented environment

## DESIRABLE SKILLS, KNOWLEDGE AND EXPERIENCE:

**Skills, Knowledge & Experience:**

- Experience administrating third party data collection platforms
- Experienced working within a health research setting
- Experience managing relationships with external organisations (service providers)
- Experienced working for non-profit or government organisations
- Management and administration of Microsoft SQL server

## SCOPE:

**Financial accountability:** Does this role have accountability for a budget?

- Nil

**People responsibility:** Does this role have any direct reports or indirect reports (through direct reports)?

No. of direct reports

- Nil

No. of indirect reports

- Nil

**ORGANISATIONAL CHART:** (please complete using position titles or insert diagram below)

Next level of supervision

Head, Research Governance and Platforms

Immediate level of supervision

Manager, Biometrics

Other roles reporting to immediate supervisor

		Web/Database Platform Administrator	Business Applications Developer
